

Product manager with a **data & finance analytics** background transitioning into product. At TradeIndia (B2B marketplace) I authored **136 PRDs**, led competitor benchmarking vs IndiaMART and structured app audits; at HCLTech I built Python/SQL automation and Power BI dashboards. I pair analytical rigour with 0→1 execution — and ship data-driven products end-to-end.

EXPERIENCE

Product Manager Intern · TradeIndia.com — Infocom Network Pvt Ltd Apr 2026 – Jun 2026

- Authored **136 PRDs** across buyer & seller journeys — onboarding, profile, inquiry and requirement workflows — covering feature gaps, bug fixes and module-level improvements.
- Ran **end-to-end competitor benchmarking** of TradeIndia vs IndiaMART across buyer journeys, seller tools, onboarding and inquiry systems.
- Surfaced **55 bugs & feature gaps** in a single structured app audit; created Jira tickets for direct developer handoff, several prioritised into active sprints.
- Contributed to **1-year product roadmap** planning (buyer & seller); analysed Play/App Store reviews for sentiment-driven prioritisation; ran CTA optimisation (PBR, Call Now, WhatsApp, Send Inquiry) across prod/pre-prod.

Analyst · HCLTech — Noida, India Aug 2022 – May 2025

- Built automated financial reporting with **Python & SQL**, cutting manual reporting cost **60%** and improving budget-variance accuracy.
- Created **Power BI & Tableau dashboards** tracking ROI, cost-efficiency and revenue KPIs — improving financial response time **25%**.
- Improved **ETL efficiency 10%** via data mapping/extraction/transformation scheduling; automated data collection (~15% processing time) and validation checks; built CI/CD pipelines.
- Refined Low-Level Design (LLD) of networking architecture, improving performance & reliability.

CSR Intern · Prudent Corporate Advisory Services Ltd. Jan 2026 – Feb 2026

- Built an **MIS Excel dashboard from scratch** (FY 2026–27) integrating monthly sheets into an annual master tracker with head-wise, payment-mode and monthly-trend views.
- Compiled a **5-year CSR impact report**; supported the Project Samarth exhibition (catalogues, banners, packaging) and drove college outreach & 9+ retail/exhibition partnerships.

SELECTED PRODUCTS (SELF-BUILT, LIVE)

- SmartCart** — AI purchase-decision engine (Node · Groq LLM · PWA).
- TeamMatch** — two-sided matching marketplace, ~146 users (Firebase).
- YatraYatri** — B2B financial-planning tool for a real client.
- + 5 more** — DayFlow, FoodMatch, LinkVault, ClassTrack, PM Study Planner. Each with a full PRD.

SKILLS

- Product Strategy PRDs Competitor Benchmarking
- App Audits Roadmapping Jira / Agile SQL Python
- Power BI Tableau ETL Wireframing
- A/B & CTA testing
