Summary

Associate Product Manager candidate (MBA) who drove a 10% DAU lift as a TradeIndia product intern, after 2+ years leading cross-functional automation projects at HCLTech. Skilled in product discovery, user research, PRDs, SQL, A/B testing, and LLM-based AI products.

Education

Narsee Monjee Institute of Management Studies *Hyderabad, Telangana*
MBA - Marketing and Analytics - 8 CGPA *2025 - 2027*

Galgotia College of Engineering and Technology *Greater Noida, India*
Bachelor of Technology, Electronics and Communication Engineering - 7.58 CGPA *2018 - 2022*

Internships

TradeIndia *Noida*
Product Intern *Apr 2026 - June 2026*

- Owned end-to-end product lifecycle across 3 product lines from ideation and user research through launch and iteration
- Managed a computer vision pipeline for an MVP agritech platform, integrating satellite imagery models (Sentinel-2, Google Earth Engine) to automate tree-canopy detection, reducing FPO onboarding verification time by 40%
- **Participated in testing across production and pre-production environments; worked on CTA optimisation (PBR, Call Now, WhatsApp, Send Inquiry buttons) and created 1 year plan on both buyer and seller side**
- Drove a 10% increase in DAU and improved retention by identifying friction points through data analysis
- Conducted **user research and customer discovery interviews**; translated findings into redesigned product flows identifying 55 bugs and feature gaps
- Prioritized product backlog using **RICE and MoSCoW** frameworks; authored **PRDs, BRDs, FSDs**, and use-case diagrams for features shipped to production
- Tracked **core product metrics (DAU, MAU, retention, conversion rate)** and surfaced insights to inform roadmap decisions

Work Experience

HCLTech *Noida*
Analyst *Aug 2022 - May 2025*

- Led end-to-end, cross-functional implementation of an **automated reporting system across finance and engineering teams, delivering 60%** cost reduction and improved accuracy across 3 departments
- Spearheaded data automation initiative, managing project timeline and resources to **achieve 15% efficiency gain**; presented business case and **ROI analysis to senior stakeholders**
- **Developed interactive Power BI dashboards tracking key financial performance metrics, improving financial response time**
- Automated **data collection and integration using Python**, reducing data collection time by 15%; visualized the data in Tableau for initial project sampling

Skills

Product Management: Agile/Scrum, Roadmapping, Jira, Figma, Prototyping, Wireframing, User Stories, End-to-End Product Lifecycle Ownership, Prioritization Frameworks (RICE, MoSCoW), User Research, Customer Discovery, Competitive Analysis, PRD/BRD/FSD Documentation, Stakeholder Management
Data Analysis: SQL, Excel, Python, Tableau, Power BI, Product Metrics (DAU, MAU, Retention, Conversion Rate), A/B Testing
AI PM: LLM Prompting, Prompt Engineering, RAG, Guardrail Design, Voice/ASR (Whisper), Model Confidence Mapping, LangChain
Technical: React, FastAPI, Git, CI/CD, Linux
Miscellaneous: Communication, Team Collaboration, Critical Thinking, Problem Solving

Projects

Echo - Voice-to-Roadmap AI Copilot

- Built and launched an AI product-discovery copilot that turns customer interviews into grounded insights and roadmaps.
- Defined personas, PRD, KPIs, and roadmap; implemented RICE/MoSCoW prioritization and transcript-linked citations.
- Added transcript chat, speaker analytics, topic mapping, and PRD/PowerPoint exports in a React/FastAPI PWA.
- Designed evidence guardrails that verify extracted quotes against source transcripts before showing recommendations.

Sentinel - Explainable Travel Booking Risk Platform

- Designed an explainable travel-risk platform for payment fraud and inventory abuse with human-in-the-loop review.
- Defined analyst, risk, engineering, and compliance workflows with privacy, auditability, safety, and explicit non-goals.
- Evaluated two models on 15,000 synthetic bookings, reaching 79.7% and 83.9% precision while documenting trade-offs.
- Built an analyst workbench combining model scores, policy rules, entity graphs, case queues, and evaluation dashboards.

Certifications

- Google Data Analytics Professional Certificate (2024)
- Microsoft Power BI Data Analyst Associate (2023)
